Oregon Peach Bitters

About eighteen years ago I received a
hurt in my back from a pile of lumber
falling on me, and ever since had been
troubled with weak kidneys more or less,
and the last year very much. Through the
recommendation of Henry Kense, I
bought a bottle of H. Kense's Oregon Peach
Bitters and before I had taken half the
bottle I found a great relief from it. I
believe it to be a splendid remedy for the
kidneys, and heartily recommend it for the
same.

DESTRUCTIVE TORNADOS.

**Serious Damage to Property in Minne-
sota and Iowa.**

ST. PAUL, April 6.—A tornado
which has just passed over south-
western Minnesota and north-west-
ern Iowa did enormous damage.
Five deaths have so far been reported
at Shieldsville, Minn. A splen-
did stone church just erected was
demolished, the loss being \$25,000.
At Faribault the loss will foot up to
\$200,000. At South Hart the railway
bridge has given way, and all
trains are temporarily abandoned.
At Mankato the Minnesota river is
leaving its banks. Ice is moving in
immense cakes, and a gorge is feared
below the city. At Sibley, Iowa,
the wind arose from a slight breeze
to a hurricane, and in a very short
space of time chimneys, pieces of
lumber and other property were
torn from their resting places and
hurled rapidly through the air.
The roof of the public school build-
ing was blown off while the school
institute was in session. A dozen
were injured but none fatally.

Coal Oil Explosion—Three Men Killed.

LOUISVILLE, April 6.—The con-
ductor of a freight train on the
Louisville and Nashville road, while
attempting to repair a leak in one
of the barrels of oil, with which four
of the cars were loaded, last night
accidentally broke his lantern. In-
stantly there was an explosion.
The conductor was blown through
the window and fell unconscious,
and fatally hurt, on the side of the
track. Two men who were helping
him jumped for their lives, but their
clothes were burning and they were
fearfully scorched and will die. The
train men seeing they could do
nothing toward stopping the fire,
cut loose the burning cars; and they
shot down an incline and did not
stop until four miles had been
covered. Nothing was left of them
but blackened trucks and iron bar-
rel hoops.

Emperor Frederic Improving.

LONDON, April 6.—The British
Medical Journal this morning pub-
lishes the following special telegram
from Berlin: The emperor of Ger-
many is getting along satisfactorily.
The lesion appears quiescent. There
are no signs of spreading and glands
are not in the least involved. His
general health is excellent, and his
appearance shows no traces of illness
or suffering, except that his hair has
become gray.

What Rumor Says.

CHICAGO, April 6.—There is a well
authenticated rumor current that
the Burlington officials and the men
have reached a mutually satisfac-
tory settlement. The next move will
be to publish an announcement
from the strikers that the battle has
been lost, and in consideration of
their withdrawal from active hos-
tilities, the company will quietly re-
instate all the old engineers and
firemen as rapidly as possible.

Fell Into Molten Iron.

NEW YORK, March 6.—At the

two workmen were fatally and four
seriously burned by falling into
molten iron.

Incompetent Engineers.

WASHINGTON, April 5.—The
house committee on commerce has
agreed to Andrews' substitute to
White's resolution providing for an
investigation of the Chicago, Bur-
lington and Quincy Railroad strike,
by a special committee of five to be
appointed by the speaker. The
resolution declares that the loco-
motive engineers now employed are
incompetent and that the claim of
resumption of public duties by the
Burlington is a fraudulent pretense
and a gross imposition upon the
public, placing in imminent peril
both life and property. The com-
mittee is directed to go to the scene
of the strike and call for witnesses
and papers and investigate and
ascertain what is necessary in the
way of legislation to protect inter-
state commerce.

Gov. Penoyer's Pardon.

SAN FRANCISCO, April 5.—The
Chronicle says editorially: "Govern-
nor Penoyer of Oregon seems to
have peculiar views in regard to
morality. He gave the woman
known as 'Pearl Page' full pardon,
on condition that she leave the
state forever. In other words, she
may 'go on the town' in California
or any other state or territory, but
she must not remain in Oregon to
inveigle any virtuous Webfoot. The
governor would have done better to
neglect the recommendation to
mercy of a sentimental jury. 'Pearl
Page' was clearly guilty and she
showed throughout that she was
perfectly aware of the crime that
she aided in accomplishing. The
governor's action has simply made
it much more difficult in future to
convict and punish any adventures
of her stripe."

Fatal Rencontre—Both Combatants Killed.

HAMPSHIRE (Texas), April 5.—
Deputy Sheriff Richard C. Cham-
bers was shot and instantly killed
here yesterday by Stephen W. Al-
lechin, a well-known citizen. The
latter wrote a communication in a
weekly newspaper, reflecting upon
the official conduct of Sheriff Mc-
Dade and Deputy Chambers. When
Chambers met Allechin a quarrel en-
sued and both opened fire simulta-
neously. A bullet entered Chambers'
heart and Allechin was fatally
wounded and cannot live.

Penitentiary Burned.

MEMPHIS (Tenn.), April 5.—The
jail at Friars Point was burned this
morning, and five prisoners perished
in the flames. An effort was made
to rescue them, but without success.
The jail is supposed to have been
fired by one of the inmates, who
was under sentence to the peniten-
tiary.

Chagrined and Indignant.

PARIS, April 5.—The supporters
of M. Clemenceau are chagrined
and indignant at his defeat for
president in the chamber of deputies
yesterday.

MORNING TELEGRAMS.

**Lightning Flashes of What the World
at Large is Doing.**

FATAL ICE GORGE.

**A Train Plunges into a Creek and
Many of the Passengers are
Killed.**

ST. PAUL, April 5.—A special dis-
patch from New Hampton, Iowa,
says: "A terrible railroad accident
occurred about four miles west of
here, on the Milwaukee & St. Paul,
by which at least a dozen people
lost their lives, and from fifteen to
twenty were injured. A train
which left Chicago at 11:30 yester-
day morning, and was due here at
2:13 a. m. this morning, passed here
nearly on time, and when about
four miles west plunged into a creek,
the bridge of which was washed out.
The creek was swollen by an im-
mense amount of water which had
been running for the past few days,
and in addition a gorge was formed,
which, previous to the arrival of the
train, carried away a portion of the
bridge. There was nothing to show
that there was danger ahead, and
the train plunged into the stream,
while running at full speed. The
engine and three coaches went into
the creek, and were immediately
submerged in the torrent of water
which overflowed the banks.

A scene of the wildest confusion
ensued, and those of the train crew
and passengers who escaped death
and injury were immediately called
into service to relieve the drowning
or pinioned passengers. It was
with great difficulty that the pas-
sengers could be reached, owing to
the rushing of the water through
the car windows. Those who were
rescued from the smoking car,
which was almost entirely sub-
merged, were taken from the
windows, some maimed to such an
extent that they were powerless to
help themselves, while others un-
hurt, were nearly drowned before
aid could reach them.

As soon as a train man who es-
caped injury could be spared he was
dispatched to the next station, and
a relief train was telegraphed for
from Mason City. Telegrams for re-
lief were also sent to Charles City
and other near places. It was not
until several hours after the accident
that a train arrived with physicians.

DETAILS OF THE DISASTER.

CHARLES CITY, Iowa, April 5.—
The wreck of the Chicago, Milwau-
kee & St. Paul railroad, some claim,
was caused by ice on the track,
while others claim by the spreading
of the rails. The engine jumped
the track first, and the baggage car
and tender plunged with the engine
into the water. The smoker struck
on top of the engine and was badly
mashed. The engine is entirely un-
der water, and the baggage car is
almost covered with water.

There were about thirty people in
the smoker. Four were killed, so
far as known, besides the engineer,
who was crushed between the cab
and the smoker. The fireman es-
caped unhurt. There were about
twenty-five to thirty wounded,
none fatally. The belief is that
three or more bodies are yet under
the wreck. The baggage man and
route agent escaped through a win-
dow without much injury.

The names of the dead that have
been learned are as follows: W.
Anderson, C. Larsen, J. Daniels,
James Seagel, engineer of Mitchell,
D. T., and Dora Heldecker, the
latter a girl about 4 years old.

Of the names of the wounded
only two can be obtained, those of
Mr. O. Ballen and H. Sears, both of
Nora Springs.

A Chicago traveling man and a
conductor kept the passengers quiet
till they could help them out. The
wounded are mostly burned from
the engine. The mails and baggage
are in the river.

Three physicians from New
Hampton, and three from Charles
City, are doing all they can for the
wounded.

CHICAGO, April 5.—A dispatch to
the associated press from New
Hampton, Iowa, says: The train
was thrown from the track by a
block of ice which the wind and
high water had placed there.
